

STAT

22 April 1966

MEMORANDUM FOR: Director, OCR

SUBJECT: Availability of DDC Tapes

1. The Defense Documentation Center is attempting to learn more about the desirability and the feasibility of providing duplicate copies of its tapes to regular users of DDC. These tapes include the entire bibliographic text that appears in the Technical Abstract Bulletin (TAB). DDC is especially anxious to get opinions from its users and, ideally, to have decentralized testing of the tapes with live request traffic. The DDC offer to make tapes available has been mentioned at COSATI (see minutes of January 1966) and also more widely announced through the DDC News Letter for January 1966.

2. There will be a meeting to discuss this matter 19 May in the Defense Supply Agency auditorium at Cameron Station, Alexandria. CIA has been informally invited to attend. Presence at the meeting is in no sense a commitment to participate further in this experiment.

3. Components of CIA that are interested in attending this meeting or in being represented at the meeting should contact the undersigned on extension

[Redacted]

4. A copy of this memorandum is being sent to each regular recipient of my notes on COSATI meetings.
